No other comments from me. Just be aware that the chlorpyrifos petitioners have mentioned several times that they think the SAP said we couldn't use these data. So just be aware of that in case she asks about their perspective on this.

Thanks Monique,

I took a look and have no additional comments. Can everyone review at these this am so Monique can send these to the OPP IO asap? I assume they will want to take a quick look before sending them across to the OCSPP IO in advance of he meeting tomorrow? I think she asked to get things a day in advance.

Thanks!

Dv

Hi all,

I'm resending the link around for the OP NAM briefing draft slides (see below). I've tried to address the comments that we received. There are a couple though where I would like to get others thoughts (slide 15 - whether to include a supplemental slide about IVIVE, slide 21 - whether to include fqpa proposals for each OP). Please let me know if you have any further suggestions as well.

Thanks!
Monique

## Perron, Monique shared a file with you

Hi all,

Here are the draft slides for the OP NAM briefing for the OCSPF IO next Thursday. I've included one slide to provide an overview of the DDEF work for their awareness, but I'm open to removing it if we would prefer keeping this briefing focused on the DNT NAMs. I know we are working with a tight timeline so please let me know if there are others you would like me to share this file with as well.

Thanks,  
Monique
